Normalien Doctor
“Agrégé” of mechanics

Curriculum Vitae

Cursus

2024 - **Postdoctoral researcher** in the Solid Mechanics Lab of Polytechnique (UMR 7649, École Polytechnique, IPP, CNRS, MEdISIM Team, INRIA, Palaiseau, France)

Goal : Individualisation and real-time simulation of a lung model using **model-order reduction techniques** ; from theoretical tools to clinical application for patients with *idiopathic pulmonary fibrosis* (IPF).

In collaboration with M. Genet

2020-2023 **PhD** at the Laboratory of Mechanics Paris-Saclay, LMPS (UMR 9026, Université Paris-Saclay, CentraleSupélec, ENS Paris-Saclay, CNRS) and at the CEA Saclay (SEMT, CEA Saclay)

Title : *Towards an optimal multi-query framework based on model-order reduction for non-linear dynamics*

Supervision : D. Néron, A. Fau

Defence on the 1st of Decembre 2023

Jury : D. Rixen (president), A. Gravouil (reviewer and examiner), F. Chinesta (reviewer and examiner), U. Nackenhorst (examiner), M. P. Santisi d'Avila (examiner)

2016-2020 **École Normale Supérieure Paris-Saclay**

► Normalien Student in the Mechanics department

2020 Master 2 Modelisation and simulation of structures and coupled systems for mechanics (MS2SC)

2019 Master 2 Post-graduate teaching training (M2 FESup)

2019 Agrégation of engineering and industrial sciences

2017 Master 1 Mechanics of structures and materials (MMS)

2016 Bachelor Saphire training (Applied sciences in physics and engineering for research and teaching)

2014-2016 **CPGE** Lycée Hoche, Versailles

2015 Mathematics, Physics and engineering sciences (MPSI)

2016 Physics and engineering sciences (PSI*)

2014 **A-levels (Baccalauréat)** “série S”

| With highest honours

Professional experience

2024 -	Research at LMS as a postdoctoral researcher <div> Goal : Individualisation and real-time simulation of a lung model using model-order reduction techniques ; from theoretical tools to clinical application for patients with <i>idiopathic pulmonary fibrosis</i> (IPF). </div>
2020-2023	Research at LMPS as a PhD candidate <div> Title : <i>Towards an optimal multi-query framework based on model-order reduction for non-linear dynamics</i> </div>
2020-2023	Teaching at École Polytechnique as a teaching assistant - 64h/year <div> General mechanics, Vibrations, Thermodynamics, Experimental methods </div>
2020	Research at LMPS as part of a Master 2 Research internship - 6 months <div> Title : <i>Model reduction in non-linear dynamics for visco-plasticity problems</i> Supervision : D. Néron, A. Fau </div>
2019	Teaching for Ellipses, writing of a book to prepare students for the Grandes Écoles entrance exams - Corrections and commentaries <div> Physique-chimie PSI-PSI* Concours X, ENS, CentraleSupélec, Mines-Ponts, CCINP </div>
2019-2020	Teaching at “lycée Hoche” - Versailles - 64h <div> SII oral examinations (colles) in PCSI preparatory classes in industrial engineering sciences </div>
2018	Research at Trinity College - Dublin, Ireland as part of a Master 1 research internship - 4 months <div> Title : <i>Predicting the acoustic absorption of meta-materials using a combination of analytical and numerical approaches</i> Supervision : H. Rice </div>
2017-2018	Research at ENS Paris-Saclay as part of a Master 1 research project - approx. 100h <div> Title : <i>Loading step and arc-length adaptation methods for non-linear hyperelasticity computations</i> Supervision : E. Baranger </div>

Publications

1 article in a peer-reviewed international journal
 5 international conferences
 2 national conferences
 1 book preparing for the CPGE PSI competitive entrance exams

Skills

English IT

Fluent (C2 at the Cambridge Advanced exam)
 Programming tools : Python, Matlab, Simulink, Octave, HTML
 Scientific software : Cast3M, Catia
 OS : Linux, MacOS, Windows
 System administration : Management of a Debian server hosting various services (cloud, ssh, git, etc.)
 Other software : L^AT_EX, Inkscape, Gimp, OpenOffice, Microsoft Office

Book

2019

► Writing of a preparation book for the entrance exams to the Grandes Écoles for the PSI, published by Ellipses.

► Physique-chimie PSI-PSI* Concours X, ENS, CentraleSupélec, Mines-Ponts, CCINP

This book contains a large number of sample oral exam exercises, with answers and comments, plus advice and details on how to best prepare for the orals. The exercises cover the CPGE PSI physics syllabus, including general mechanics, fluid mechanics, thermodynamics, signal and power electronics and electromagnetism.
